MICHAEL MOKUA

Full-Stack Developer & ML Enthusiast

Building digital solutions that matter. From AI-powered healthcare tools to agricultural marketplaces, I transform ideas into functional, user-centered applications.

AVAILABILITY

🚀 3-month attachment

📅 Starting January 2025

01 Education

Bachelor of Science in Information Technology

Expected Graduation: December 2026 | Year 4.2 Completed

A comprehensive program covering the full spectrum of modern software development, from foundational computer science principles to cutting-edge technologies in web development, machine learning, and mobile applications.

Core Competencies: Software Engineering • Database Systems • Web Development • Machine Learning • Data Structures & Algorithms • Mobile App Development

02 Featured Projects

Agri Value Connect

Marketplace

Next.js   TypeScript   React   Tailwind CSS

- ▷ Architected a full-featured digital marketplace bridging the gap between agricultural producers and consumers
- ▷ Engineered secure authentication and role-based authorization systems protecting user data and transactions
- ▷ Developed dynamic CRUD operations enabling sellers to effortlessly manage product listings
- ▷ Crafted an intuitive, responsive interface optimizing the buyer-seller experience across all devices
- ▷ Integrated real-time database synchronization for instant marketplace updates and notifications

Breast Cancer AI Detector

Healthcare ML

Python   Scikit-learn   Pandas   NumPy

▷ Developed an AI-powered diagnostic system achieving 80% accuracy in breast cancer detection

▷ Implemented and benchmarked six classification algorithms (Decision Tree, Random Forest, SVM, KNN, Naive Bayes, Logistic Regression) to identify optimal performance

▷ Executed comprehensive data preprocessing and feature engineering using Pandas and NumPy

▷ Generated detailed evaluation metrics including confusion matrices and classification reports for medical validation

▷ Deployed end-to-end ML pipeline from data ingestion to model serialization using pickle

Custom Web Solutions

Client Work

React   Next.js   HTML/CSS

▷ Delivered professional websites for educational institutions and corporate clients, meeting diverse business requirements

▷ Designed and deployed personalized portfolio websites showcasing individual client brands and achievements

▷ Implemented fully responsive layouts ensuring seamless experiences across desktop, tablet, and mobile devices

▷ Prioritized accessibility and performance optimization, achieving fast load times and high lighthouse scores

03 Technical Arsenal

Languages

Python • JavaScript • Java • C++ • HTML • CSS

Frontend Stack

React • Next.js • TypeScript • Tailwind CSS

Backend & Databases

MySQL • PostgreSQL • MongoDB • Supabase • Firebase

Data Science & ML

Pandas • NumPy • Scikit-learn • Model Evaluation • Classification Algorithms

Development Tools

Git • GitHub • Vercel • VS Code

Mobile & Other

Android Development • RESTful APIs • Responsive Design

04 What I Bring

⚡

Quick Learner

I rapidly absorb new technologies and frameworks, staying ahead of industry trends and adapting to

💡

Creative Problem Solver

I approach challenges from unique angles, developing innovative solutions that balance functionality with

evolving development landscapes.

user experience.

Technical Excellence

I write clean, maintainable code with a focus on performance optimization and best practices in software architecture.

Team Collaboration

Experienced in agile workflows and version control, I thrive in collaborative environments and value clear communication.

05 Experience

Collaborative Academic Projects

Team Work

- ▷ Led and contributed to multiple software development projects throughout university, from inception to deployment

- ▷ Applied agile methodologies and participated in sprint planning, code reviews, and retrospectives

- ▷ Leveraged Git for version control, managing branches, pull requests, and resolving merge conflicts

- ▷ Demonstrated strong communication skills, translating technical concepts for diverse team members

LANGUAGES

English (Fluent)
Swahili (Fluent)

WORK STATUS

Kenyan Citizen
Ready to relocate
